- A. **Case Number:** CU-0825-00013
- B. **Location:** 7125 114th Avenue North (Parcel ID: 18-30-16-69768-100-1303)
- C. **Request:** Conditional Use approval for Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment in the "M-1" Light Industrial Zoning District.
- D. **Applicant:** Jean Mandilk (Northside Engineering)
- E. **Owner:** S & J FAMILY LLLP
- F. **Legal Ad Text:** Conditional Use approval for Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment in the "M-1" Light Industrial Zoning District.
- G. **PARC Meeting:** September 16, 2025
- H. **Public Hearings:**
Planning & Zoning Commission Hearing Date: November 6, 2025
Advertising Date:

City Council Hearing Date: February 12, 2026
Advertising Date: January 28, 2026

II. BACKGROUND INFORMATION

A. **Case Summary:**

The applicant is requesting conditional use approval for the Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment, which is a conditional use in the "M-1" Light Industrial Zoning District and is consistent with the "IL" Industrial Limited Land Use designation. The subject site includes a 7,000-square-foot warehouse for general storage and approximately 78,993 square feet of outdoor storage area for vehicles and other similar equipment. Parking requirements for the development account for both the warehouse and outdoor storage areas. As currently proposed, the site requires a minimum of 18 parking spaces, which will be provided in accordance with code requirements. A drainage ditch is located along the eastern property line and is maintained by Pinellas County. Approval of site work permits by the City will be contingent upon receiving the necessary approvals from the County.

The proposed conditional use is reviewed in accordance with Section 18-1531.10 which states:

- (a) *Administrative approval unless a waiver is requested for any of the following criteria, then the application shall require Review by the Planning and Zoning Commission and approval by City Council.* In progress.
- (b) *Minimum separation of three hundred (300) linear feet from any residential district measured from property line to property line.* A waiver has been requested. The drainage canal located with the adjacent residential planned unit development (RPUD) lies directly northeast of the subject property. Because the northeastern corner of the subject site abuts this canal, the required three hundred (300) linear foot separation is not achieved when measured from property line to property line. When measured from the subject property line to the nearest residential home with the RPUD, however, the separation distance does meet the required standard.

- (c) *Enclosure of all storage areas by a solid wall or fence not less than eight (8) feet high.* Requirement proposed to be met.
- (d) *Ten (10) feet-wide landscaped buffers along the entire right-of-way which provides the primary access to the site (in accordance with Section 18-1533.15.).* Requirement proposed to be met.

At this time, the applicant does not have a specific business lined up for this property, but has confirmed that the future use does not include hazardous chemicals or loud manufacturing.

B. Site Area: 138,569 square feet / 3.18 acres

C. Property History:

The subject property was originally platted in 1911 as part of the Plat of Pinellas Farms. It is a portion of farm 13, township 16. The site has never been developed. The site is located within the Countywide Target Employment Center (TEC), though the property owner is not proposing to utilize the benefits of this overlay as part of this development.

D. Existing Use: Vacant industrial

E. Future Land Use: Industrial Limited (IL)

F. Zoning District: Light Industrial (M-1)

G. Flood Zone: The property is located within the X and X-shaded flood zones, which is a low-risk to moderate-risk flood zone.

H. Evacuation Zone: This property is in Evacuation Zone C, which is the third level to evacuate in preparation for a storm. Zone C is evacuated when storm surge height is predicted to be up to 20 feet.

I. Vicinity Characteristics:

	Zoning	Land Use	Existing Use
North	P, R-1 (RPUD)	R/OS	Pinebrook Park, Drainage Canal
South	M-1	IL	Warehouse
East	M-1	IL	Drainage Canal
West	M-1(IPUD)	IL	Light Manufacturing, Warehouse

III. APPLICABLE CRITERIA / CONSIDERATIONS

A. Land Use Designation / Comprehensive Plan Policies:

1. Land Use Purpose / Intent:

It is the purpose of this category to depict those areas of the City that are now developed, or appropriate to be developed, in a limited industrial manner; and so as to encourage the reservation and use of consolidated areas for industrial and industrial/mixed use in a manner and location consistent with surrounding use, transportation facilities, and natural resource characteristics.

2. Key Standards:

***Use Characteristics** – Those uses appropriate to and consistent with this category include:*

Primary Uses – Office; Research/Development; Light Manufacturing/Assembly (Class A) and (Class B); Wholesale/Distribution (Class A) and (Class B); Storage/Warehouse (Class A) and (Class B).

Secondary Uses – Residential (limited to locations in Gateway Centre developed prior to August 7, 2015, pursuant to Section 2.3.3.14(E) of the Countywide Plan Rules (2018));¹ Retail Commercial; Personal Service/Office Support; Commercial/Business Service; Commercial Recreation; Temporary Lodging; Institutional; Transportation/Utility; Recreation/Open Space; Transfer/Recycling; Incinerator Facility; Agricultural

Locational Characteristics – This category is generally appropriate to locations with sufficient size to encourage an industrial park arrangement, as well as integrated industrial/mixed use projects, with provision for internal service access in locations suitable for light industrial use with minimal adverse impact on adjoining uses; and serviced by the arterial and thoroughfare highway network, as well as mass transit.

3. Relevant Policies:

OBJECTIVE LU.1.16

Continue to provide for site plan review of all industrial development.

POLICY LU.1.16.1

Maintain a sufficient supply of industrial land with a minimum of adverse effects on abutting properties.

POLICY LU.1.16.3

Industrial uses shall be concentrated in suitable existing locations to prevent a spread of negative effects on the community.

POLICY LU.1.16.4

Industrial development shall be separated from adjacent incompatible uses, and from residential uses permitted under special area plans, by transition zones, landscaping, parks, open space, or other buffering areas, for the mutual protection of industrial and non-industrial land uses.

4. Staff Analysis:

The proposed conditional use of Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment is appropriate for the Industrial Limited (IL) Land Use category. The subject property is located within an industrially zoned area, and the proposed development maintains the intended industrial function of the site. The site layout also supports the mutual protection of industrial and non-industrial areas by locating the outdoor storage as far as practicable from the adjacent residential district. Additionally, the proposed site plan incorporates required buffering and landscaping to ensure that nearby residential properties are adequately screened and protected from potential adverse impacts.

While the applicant has not yet identified specific business operations for the site, staff find that the proposed warehouse and outdoor storage, as it is depicted on the site plan, is generally consistent with and supported by the Land Use designation and the Goals, Objectives, and Policies of the Comprehensive Plan.

B. Zoning District / Land Development Code Standards:

1. Zoning District Purpose / Intent:

The "M-1" Light Industrial District is established in order to identify and provide those geographic areas within the City of Pinellas Park that are appropriate for the development and maintenance of a light industrial environment, which does not create hazardous or other serious detrimental effects upon the public health in the surrounding areas. This district is intended primarily for a wide variety of industrial uses and compatible retail, wholesale, distributing operations, and in limited situations as provided in (B) below, single and multi-family dwellings, together with accessory uses and public facilities customary to or required for such an environment.

Areas of the City for which this zoning category is appropriate are designated on the Land Use Plan Map as Industrial Limited (IL) or Community Redevelopment District (CRD) Land Use Plan Map Categories.

2. Key Standards:

SECTION 18-1524. - "M-1" LIGHT INDUSTRIAL DISTRICT
Sec. 18-1524.3. - PERMITTED AND CONDITIONAL USES.

Land Use	Approval Type	Conditions
Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment	C	Subject to sections 18-1530 and 18-1531

Sec. 18-1524.4. - DIMENSIONAL AND AREA REGULATIONS.

(A) MINIMUM LOT REQUIREMENTS.

1. Lot Area: Fifteen thousand (15,000) square feet.
2. Lot Width: One hundred (100) feet.
3. Lot Depth: One hundred fifty (150) feet.
4. Lots of record not meeting the lot area, width, or depth requirements of this section and having been of record prior to the adoption of these regulations may be used for a permitted or conditional use provided that all other dimensional regulations will apply.

(B) MINIMUM YARD SETBACK REQUIREMENTS

1. Front Yard Setback: Twenty (20) feet.
2. Secondary Front Yard Setback: Ten (10) feet.
3. Side Yard Setback: Five (5) feet; ten (10) feet is required if abutting a residential zoning district.
4. Rear Yard Setback: Five (5) feet, ten (10) feet is required if abutting a residential zoning district.
5. For corner, double frontage and multiple frontage lots, see Section 18-1503.7, "Yard Determinations."
6. Refer to Section 18-1503.8 for measurement of yard setbacks on lots adjacent to rights-of-way of insufficient width.

(C) MAXIMUM LOT COVERAGE. Seventy-five (75) percent. Refer to Section 18-1530.18 for maximum lot coverage allowances for master stormwater retention/detention ponds.

(D) MINIMUM FLOOR AREA AND LIVEABLE FLOOR AREA.

1. Nonresidential: Three hundred (300) square feet.
2. Residential: See Table 1524-1.

Table 1524-1

<i>Single-family Attached</i>		<i>Multifamily</i>	
<i># of bedrooms</i>	<i>Required interior floor space in ft²</i>	<i># of bedrooms</i>	<i>Required interior floor space in ft²</i>
<i>Efficiency</i>	<i>650</i>	<i>Efficiency</i>	<i>450</i>
<i>One (1)</i>	<i>750</i>	<i>One (1)</i>	<i>550</i>
<i>Two (2)</i>	<i>850</i>	<i>Two (2)</i>	<i>650</i>
<i>Three (3) or more</i>	<i>1,000</i>	<i>Three (3)</i>	<i>1,000</i>

Single-family Detached: One thousand (1,000) SF.

(E) FLOOR AREA RATIO.

1. Fifty-five hundredths (0.55) in CRD.
2. Fifty-five hundredths (0.55) in IL.

(F) MAXIMUM BUILDING HEIGHT. Forty (40) feet See Section 18-1503.13, "Exclusion from Height Limits," for height limit exclusions.

(G) MINIMUM BUILDING SEPARATION. Must meet Florida Building Code separation requirements.

Sec. 18-1524.5. - ADDITIONAL REGULATIONS.

(A) FENCES. See Section 18-1530.10, "Fences, Walls and Hedges" for fence regulations and setbacks.

(B) LANDSCAPING AND BUFFERING. See Section 18-1533, "Landscaping Regulations."

(C) DUMPSTER ENCLOSURES (See Section 18-1530.20, "Dumpsters"), AND ALSO SUPPLEMENTAL USE REGULATIONS (See Section 18-1530, "Accessory Use and Supplementary District Regulations")

(D) OFF-STREET PARKING AND LOADING. See Section 18-1532, "Parking and Loading Regulations."

(E) PERFORMANCE STANDARDS. All uses shall be controlled to prevent the emission of smoke, particulate matter, odor, gases, radiation, noise, vibration, or pollution of any kind. Industries shall comply with all applicable standards for air and water quality and noise regulations; in such cases where agency standards conflict, the most stringent standards will apply.

(F) PRELIMINARY SITE PLAN APPROVAL REQUIREMENTS. In any case where an "M-1" lot abuts or functionally abuts a residential or mixed use zoning district, City Council shall review and approve a preliminary site plan pursuant to the procedures and requirements of Section 18-1540, "Preliminary Site Plan Requirements." Additionally, the petitioner shall submit a letter detailing the type of development proposed, the hours of operation, and the characteristics of operation of the development, including the amount and type of traffic (passenger cars and heavy trucks) anticipated. All preliminary site plans, final site plans, engineering permits and architectural plans shall demonstrate conformance with the locational design standards in Section 18-1524(F) or (G) as appropriate. Minor amendments to site plans that remain consistent with these Locational Design Standards may be approved by the City Manager or his designee

1. Locational Design Standards. The preliminary site plan, final site plan and building plans shall show conformance with the following locational design standards:

a. General Standards:

- 1) Performance standards shall be as set forth in Section 18-1524.5 (E) above;
- 2) Illumination shall be in accordance with the standards of Section 18-1503.15; and
- 3) Any outdoor storage areas shall be in accordance with standards of Section 18-1530.11.

2. Abutting Residential or Mixed Use zoning districts:

- a. All noise generating mechanical equipment including, but not limited to, air conditioning and refrigeration units, fans, vents, compressors, compactors, vacuums, and similar equipment, shall be placed fifty (50) feet from the residential property line and shall exhaust away from said property to minimize the industrially generated noise;
- b. Only egress doors for people may face said property. No door that provides access for vehicles or movement of equipment or materials, or for ventilation shall face said property, whether such door is an overhead, sliding, or other type of similar door;

- c. No loading area, loading dock, truck well, or truck parking or storage area shall be within twenty (20) feet of said property, nor oriented toward said property;
- d. No outdoor storage shall occur within twenty (20) feet of said property;
- e. No dumpster shall be within twenty (20) feet of said property; and
- f. Landscaping and buffering shall be provided in accordance with the provisions of Section 18-1533, "Landscaping Regulations", except that one (1) tree shall be planted for every thirty (30) feet, or fraction thereof, within the required buffer.

3. *Functionally Abutting Residential or Mixed Use Zoning Districts:*

- a. All noise generating mechanical equipment, including, but not limited to, air conditioning and refrigeration units, fans, vents, compressors, compactors, vacuums, and similar equipment, shall be placed twenty-five (25) feet from the lot line closest to the residential property and shall exhaust away from said property to minimize the industrially generated noise; if buffered with a solid masonry wall, such equipment may be placed on the sides of the building (but not within required setbacks);
- b. Only egress doors for people may face said property. No door that provides access for vehicles or movement of equipment or materials, or for ventilation shall face said property, whether such door is an overhead, sliding, or other type of similar door;
- c. No loading area, loading dock, or truck well shall be within twenty (20) feet of the front property line, nor shall the aforementioned be oriented toward said property; said loading area, loading dock, or truck well shall be screened from view from the public or private right-of-way by a six-foot high solid fence, wall, or landscape screen;
- d. No dumpster(s) shall be visible from the public or private right-of-way; said dumpster(s) shall be screened from view by a solid fence or wall six (6) feet in height (including gates); and
- e. Landscaping and buffering shall be provided in accordance with the provisions of Section 18-1533, except that a ten-foot wide landscaped buffer shall be maintained along the entire right-of-way of said property.

(G) *Specific Locational Design Standards for Property Abutting or Functionally Abutting Residential or Mixed Use Zoning Districts and Proposed for Development or Redevelopment after November 1, 2010.*

As in (F) above, all plans submitted for various permits and/or development orders on vacant parcels being developed or previously developed parcels being redeveloped after November 1, 2010, shall demonstrate conformance with the following design standards.

1. *Abutting Residential or Mixed Use Zoning Districts:*

- (a) All noise generating mechanical equipment including, but not limited to, air conditioning and refrigeration units, fans, vents, compressors, compactors, vacuums, and similar equipment, shall be placed fifty (50) feet from the residential property line and shall exhaust away from said property to minimize the industrially generated noise. Additionally,
- (b) Only egress doors for people may face said property. No door that provides access for vehicles or movement of equipment or materials, or for ventilation shall face said property, whether such door is an overhead, sliding, or other type of similar door;
- (c) Loading areas, loading docks, and/or shipping/receiving areas/facilities shall be screened from view by wing walls or recessed into the building. Where an intervening structure lies between the loading/unloading facilities and the residential lot(s), additional screening is not required.
- (d) No outdoor storage area shall be permitted within ten (10) feet of abutting residential or mixed use district property lines. If the height of items proposed for outdoor storage exceeds the height of the eight (8) feet high buffer wall required on the perimeter by Section 18-1533, then additional visual screening with a material able to withstand the various destructive elements of subtropical weather (i.e. UV radiation, humidity, wind, heat) shall be required equal to the height of said storage. Said screening shall be maintained in good condition so as not to diminish its functionality or visual appearance.

Vehicles and mobile equipment of extraordinary height need not be screened above a height of eight (8) feet. Additionally, activities within the outdoor storage areas shall be limited to the hours between 7:00 a.m. and 7:00 p.m.

- (e) Landscaping and buffering shall be provided in accordance with the provisions of Section 18-1533, except that one (1) tree shall be planted for every thirty (30) feet, or fraction thereof, within required buffers.
- (f) No dumpster shall be within five (5) feet of said property.

2. *Functionally Abutting Residential or Mixed Use Zoning Districts.*

- (a) All noise generating mechanical equipment, including, but not limited to, air conditioning and refrigeration units, fans, vents, compressors, compactors, vacuums, and similar equipment, shall be placed twenty-five (25) feet from the lot line closest to the residential property and shall exhaust away from said property to minimize the industrially generated noise.
- (b) Only egress doors for people may face said property. No door that provides access for vehicles or movement of equipment or materials, or for ventilation shall face said property, whether such door is an overhead, sliding, or other type of similar door.
- (c) Loading areas, loading docks, and/or shipping/receiving areas/facilities shall be screened from view by wing walls or recessed into the building. Where an intervening structure lies between the loading/unloading facilities and the residential lot(s), additional screening is not required.
- (d) No outdoor storage area shall be permitted within ten (10) feet of abutting or functionally abutting residential or mixed use district property lines. If the height of storage items exceeds the height of the eight (8) feet high buffer wall, then additional visual screening with a material able to withstand the various destructive elements of subtropical weather (i.e. UV radiation, humidity, wind, heat) shall be required equal to the height of said storage. Said screening shall be maintained in good condition so as not to diminish its functionality or visual appearance. Vehicles and mobile equipment of extraordinary height need not be screened above a height of eight (8) feet. Additionally, activities within the outdoor storage areas shall be limited to the hours between 7:00 a.m. and 7:00 p.m.
- (e) Landscaping and buffering shall be provided in accordance with the provisions of Section 18-1533, except that a ten-foot wide landscaped buffer shall be maintained along the entire right-of-way of said property.
- (f) No dumpster(s) shall be visible from the public or private right-of-way; said dumpster(s) shall be screened from view by a solid fence or wall six (6) feet in height (including gates) and shall not be placed within five (5) feet of the property line.

SECTION 18-1531. - CONDITIONAL USE REGULATIONS

Sec. 18-1531.6. - REVIEW CRITERIA.

- (A) *In granting an application for a conditional use, the City shall find that such approval will not adversely affect the public interest, and shall consider the compatibility criteria listed in Paragraph (C), below, in their decision.*
- (B) *In evaluating an application for conditional use, the presence of nonconforming uses or buildings, substandard property maintenance, or substandard conditions in the neighborhood shall not be used to justify the granting of a conditional use. Additionally, the cumulative impact of the proposed use in proximity to a similar existing use shall be considered, as shall the scale, placement, orientation, design, appearance, and intensity of the conditional use and improvements to be associated with the conditional use, as applicable.*

(C) **COMPATIBILITY REVIEW CRITERIA.**

- 1. *Whether the use and its proposed scale will be inconsistent with the established character of the immediate neighborhood, to the extent that such character is consistent with the Comprehensive Plan and the provisions of the applicable zoning district(s).*

2. *Whether the use will diminish the use or enjoyment of other properties and living or working conditions in the neighborhood.*
3. *Whether the use will impede the normal and orderly development and improvement of surrounding properties for uses permitted in their respective zoning districts and in a manner consistent with the Comprehensive Plan.*
4. *Whether the establishment, maintenance or operation of the use will be detrimental to, or endanger, the public health, safety, comfort, or general welfare as a result of hours of operation, arrangement of uses on the site, noise, vibration, emission or pollutant, glare, odor, dust, traffic congestion, attractive nuisance, or other condition.*
5. *Whether the land area is sufficient, appropriate and adequate for the use and reasonably anticipated operations and expansion thereof.*
6. *Whether the use and associated improvements will adversely affect a known archaeological, historical, cultural, or landscape resource.*
7. *Whether the particular traffic generation characteristics of the proposed use, including the type of vehicular traffic associated with such uses is compatible with the traffic generation characteristics of other uses permitted in the zoning district(s) applicable to the neighborhood.*

Sec. 18-1531.10. - LIST OF CONDITIONAL USES AND REQUIREMENTS.

59. Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment.

- (a) *Administrative approval unless a waiver is requested for any of the following criteria, then the application shall require Review by the Planning and Zoning Commission and approval by City Council.*
- (b) *Minimum separation of three hundred (300) linear feet from any residential district measured from property line to property line.*
- (c) *Enclosure of all storage areas by a solid wall or fence not less than eight (8) feet high.*
- (d) *Ten (10) feet-wide landscaped buffers along the entire right- of-way which provides the primary access to the site (in accordance with Section 18-1533.15.).*

Sec. 18-1532.9. - MINIMUM OFF-STREET PARKING SPACE REQUIREMENTS.

(D) INDUSTRIAL AND MANUFACTURING USES.

3. *Outdoor Storage. One (1) per ten thousand (10,000) SF of Storage and one (1) per three hundred (300) SF of accessory Office space.*
4. *Warehousing: One (1) per seven hundred fifty (750) SF of GFA.*

2. Staff Analysis:

The proposed use of Outdoor Storage of Vehicles, Construction Equipment, and Other Similar Equipment is a conditional use in the "M-1" Light Industrial Zoning District. The applicant proposes to meet a majority of the conditional use requirements, with a waiver to the separation requirement from the abutting RPUD. The use is consistent with the established character of the neighborhood and would not diminish the use of adjacent properties. The proposed development is not anticipated to be detrimental to the immediate area or to create any adverse impacts. The required landscape buffers, combined with the proposed eight (8)-foot fence, should effectively screen stored equipment from public view. Regarding parking, the applicant proposes a 7,000-square-foot warehouse and 78,993 square feet of outdoor storage. This results in a minimum of 10 spaces for the warehouse and 8 spaces for the outdoor storage, for a total of 18 required spaces for the property. The applicant is proposing 19 parking spaces, exceeding the minimum requirement.

Staff finds that the proposed use is consistent with the purpose and intent of the "M-1" Light Industrial Zoning District and the City's Land Development Code

C. Project Application Review Committee (PARC) Comments:

The application was discussed at the September 16, 2025 PARC meeting by all relevant departments divisions. Staff raised no comments or concerns.

IV. SUMMARY

A. Findings:

Based on the information and analysis contained in this report, staff finds as follows:

1. The applicant's proposed use, consisting of warehouse operations and outdoor storage, appears to meet the general intent and permitted development pattern of the "M-1" Light Industrial Zoning District;
2. The proposed use meets a majority of the Conditional Use requirements per Section 18-1531.10, and meets the Conditional Use Review Criteria per Section 18-1531.6(C);
3. The proposed use, as generally described, is consistent with the Goals, Objectives, and Policies of the Comprehensive Plan and intent of the Land Development Code.
