Hi Dan,

My deepest apologies I was extremely ill this week with the flu. Apologies for not reaching out sooner between work and being ill I fell very far behind and lost track of this meeting.

My company is currently working towards close on the acquisition by Adobe. As working is growing with integration planning, I don't think I can properly take on the role to help support the team as when I originally sent in my application.

Hopefully you understand the challenge, and when/if things slow down a bit hopefully I can reach out to see if there is still an opportunity to support the community.

Apologies again Dan for the late reach out.

Have a great rest of your weekend
